CLEVER GAME TO OBTAIN MONEY

Harry Foreman Fleeces
Groceryman but is Arrested.

C. WILLIAMS PREFERS CHARGES

Chief Klinefelter Goes to
Lancaster for Prisoner.

Foreman Pretends to Work at Marion Steam Shovel Company and Borrows \$22—Order for his Pay is no Good—Arrested at Lancaster Soon After Matter is Reported to Local Police.

Harry Foreman, of 846 Mound street, worked a clever game during the past four days and fleeced his countryman out of \$22 but was unsuccessful in his get-away as he was apprehended in Lancaster, Ohio, soon after the matter was reported to the local police. Chief of Police Klinefelter went to Lancaster this morning and returned this afternoon with his prisoner, who must answer to the charge of obtaining money under false pretenses.

The charge was filed with Mayor Seiter last evening by Clarence Williams, proprietor of a grocery store on Mound street and the victim of Foreman's game. According to Williams' story, Foreman would leave his home each morning before the 6:30 o'clock shop whistles blew and return at night covered with grease, oil and grime, leading his wife, groceryman and neighbors in the vicinity to believe that he was laboring in Marion Steam Shovel company's plant.

On the strength of this, Foreman informed Williams yesterday evening that he was in great need of ready cash, would like to negotiate a loan of \$22 and could give him an order on the Marion Steam Shovel company's security. Williams, supposing that the order was as good as gold, handed over the money and accepted the order.

After the transaction, Williams called Foreman's foreman at the shop had \$22 due him from the shop. He had \$22 due him from the shop. He was informed that Foreman had not been at work for the past four days and had no money coming to him. Soon afterwards, Williams filed the affidavit.

The police called the authorities at Lancaster at ten o'clock last night and at one o'clock this morning were informed that Foreman had been arrested and was being held. Lancaster is Foreman's former home and the authorities in that city state that he is well known in police circles there.

COUNTY DOES NOT NEED MAN FOR JOB OF SEALER

Commissioners Are Said to
Hold This Belief.

The Probability is That no One Will
be Appointed to This Job at a Very
Early Date.

There is a strong probability that Marion county will not have a sealer weights and measures for some time to come. The board of county commissioners, which has the appointing power, is said to be of the belief that such an official is unnecessary. "It is my opinion that there is little need of a sealer of weights and measures in Marion. If the consumer cannot protect himself against fraudulent measures how can he expect to hire some one to do it for him?"

County Auditor Allen, so it is stated has a man in mind who would take the position at \$100 a month and whom he would be willing to appoint.

"I can't see where a man could earn a salary like that at this job," one of the commissioners stated today. "Naturally there would be considerable work to do at first and probably he would be pretty busy, but after that there would be comparatively little for him to do."

PLANS FOR BILLS' PICNIC DISCUSSED

Any one desiring to enter will call at Strayer's drug store. The program will be announced later.

CUTS DAY FOR MARION WOMEN

New Law Lessens Hours of
600 Workers.

SOME PREFER LONGER DAY

Smith Mattress Co. Employees
Are Disappointed.

Company Will be Seriously Inconvenienced—Susquehanna Silk Mills Co., Takes Off an Hour a Day—Shoe Company Does Same—Effect on Telephone Company is Slight.

The woman's nine-hour labor law, which was passed at the recent session of the legislature and only a few weeks ago went into effect, changed the length of the working day for about 600 women and girls in the city of Marion. The companies affected by the new law are the Susquehanna Silk Mills company, the Smith Mattress company, the Marion Shoe company and the Marion County Telephone company.

The employees of the Susquehanna Silk Mills company, numbering about 500 are now working only nine hours a day where before the time that the law went into effect they worked ten hours every day but Saturday. The Marion Shoe company employees between 50 and 60 women and girls who now worked 9 hours a day, instead of 10 hours. The change has caused little inconvenience with these companies although it may necessitate increasing their forces to a small extent. It really will cut down the earnings of practically all employees of the silk mills company, since they are paid chiefly according to the amount of the work done.

Women Prefer Long Day.

The new law will work much inconvenience with the Smith Mattress company according to a statement given out by the management. During the rush mattress season it has always been customary to work long days in order to handle the increased business. Under the new law this will be impossible and it will be necessary for the company either to take on more women and girls or to substitute men for the present employees in order to work extra time. The women employed by the Smith company are disappointed because of the new law. They state that their work is not hard or trying and that they always have been glad for the opportunity to work extra hours and earn more money.

Manager Arthur Berry of the Marion County Telephone company says that the new law will have little effect on the conduct of the affairs of that corporation. The members of the day force have never worked more than from eight to eight and a half hours a day and two girls who have attended to the night business have never put in more than ten and a half hours. It is probable that the company will be required to add four or five girls to its present force. All of the operators are paid by the hour.

Manager Berry recently wrote to Attorney General Hogan asking if it would not be legal to give a girl two hours rest at night and work her 11 hours by deducting the rest period. The attorney general said that the two hours would have to be counted in since the girl would practically be giving her time to the company and would be subject to call.
